

Manchester Lupus and Connective Tissue Diseases Day
Tuesday 17th Sept 2019
Manchester Central Convention Complex, Manchester, UK

At this one-day course, our faculty of national and internationally recognised experts will provide updates on the assessment and clinical management of the full-spectrum of connective tissue diseases. The course is an official satellite of the 16th International Congress on Antiphospholipid Antibodies (17th-20th September 2019) and so we will have a session of case-based discussions focused on thrombosis and haemostasis relating to this family of disorders.

This will be an informative and pragmatic update for physicians, nurses, midwives and other allied health professionals involved in the management of these diseases. It will also be highly relevant to a range of specialities including rheumatologists, haematologists, obstetricians, neurologists, dermatologists, paediatricians and general internists.

The course is endorsed by the British Society for Rheumatology.

Registration details are on our website (<http://icapconference.com/>).

Colleagues are also invited to register for the main congress: at a discounted rate for course attendees.

08:45-09:00 hrs	Welcome and Introductions	
09:00-11:00 hrs: Update Session	<p>Inflammatory Myositis, Clinical and Auto-antibody Subsets</p> <p>Sjogren's Syndrome – Monitoring and Assessment for Long-Term Complications</p> <p>UCTD-MCTD-CTD What's in a Name?</p> <p>Systemic Lupus Erythematosus – Lessons Learned from an observational cohort</p>	<p>Hector Chinoy</p> <p>Liz Price</p> <p>David Isenberg</p> <p>Michelle Petri</p>
